I need your help today—before it's too late.

Our Year-End \$2-for-\$1 matching gift offer is about to expire—please make your gift now so you don't miss out.

Right now, we're just \$663,956.55 from our \$2.5 million goal, worth a total of \$7.5 million after the match. [Will you make a gift today to push us over the top before it's too late?](#)

In the past nine years that I've spent helping EDF supporters like you speak out, you've demonstrated that in every one of our United States, there are dedicated people working tirelessly to protect our air, water, and wildlife from pollution and exploitation.

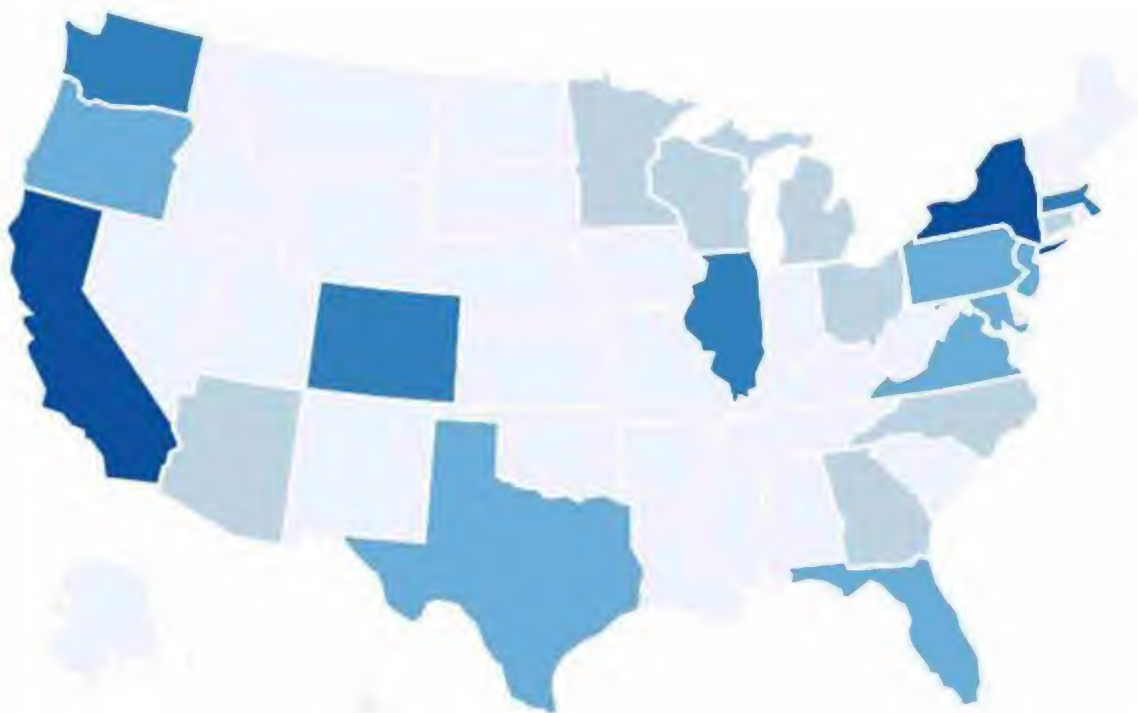

This year, in spite of outrageous odds, we made incredible progress because you spoke out. In California, we built broad bipartisan support for extending mandatory caps on carbon pollution to 2030. In Illinois, a historic bill took effect that will cut carbon pollution from their power sector 56% by 2030—and we successfully defended it against attempts to undermine its integrity.

And just last week, Trump's toxic EPA nominee Michael Dourson withdrew his name from consideration for a top EPA job after EDF supporters flooded the Senate with nearly 30,000 messages opposing his nomination and torpedoing his chances of being confirmed by the Senate.

We have more tough fights ahead in 2018. We'll push back against every bad nominee and damaging policy...and one city and state at a time, we'll push forward.

But right now, I need your help to ensure we raise every dollar possible to keep pushing.

Here's a map of everyone who has contributed to our 2017 Year-End campaign, by home state:

**Please put your state on the map with a gift to our
Year-End matching gift campaign today.**

Thank you for making progress possible,

Heather Shelby
